Index to A. M. A. Archives of Otolaryngology for the Period July through December, 1956
THIS INDEX consists of two parts: Author and Title Index and Subject Index. A Table of Contents is not included, and subscribers who want one in the bound volume should arrange to have the Table of Contents of each of the six issues of this volume included among the pages to be bound.
AUTHOR AND TITLE INDEX TO VOLUME 64

In this Index in alphabetical order are the names of the authors of all articles and the presenters of cases in Society Transactions, followed by the title of the article or case presented and the page numbers on which their articles or cases begin. The asterisk (*) preceding the page number indicates an original article, case report, review article, or scientific exhibit.

For Subject Index see page 572.

SUBJECT INDEX TO VOLUME 64

The following Index contains an alphabetical list of significant subjects presented in this volume. Abstracts are indexed by category under the heading "Abstracts." Books reviewed are listed alphabetically by title under the heading "Books." Society transactions are listed under that heading, with individual papers indexed under appropriate headings. Notices of symposiums, lectures, postgraduate courses, and similar events are indexed under the general heading "Postgraduate education."
